A photograph of a brick building facade with three rows of windows and a city skyline in the background. The building is made of red brick with dark grey mortar. The windows are black-framed and multi-paned. The sky is blue with some light clouds. In the background, several skyscrapers are visible, including one with a distinctive triangular top.

Utility Product Overview

A utility size brick is a very popular larger sized length of brick at a standard height. The utility brick is a popular choice for larger buildings and also allows the mason to lay more square feet per shift.

In this catalog we highlight our most popular and stocked brick, clay and cement thru-wall block, as well as shapes! Other sizes and color options available upon request with various lead times.

For more information and availability please call your sales professional today!

Thru-Wall Block // Concrete Masonry Unit

Thru-Wall concrete masonry units are a great alternative to traditional masonry on some projects. We offer some of the top brands in the industry for structural block! Today, we are capable of reviewing many alternative face options too! You can go with traditional, burnished, polished, and more. Check out a few of our popular Premier Ultra® Burnished colors from County Materials.

** Thru-Wall concrete masonry units are NOT on the stocking inventory program. Call for availability **
 ** Colors and lead times vary.

Heritage Collection™

It's easy to see why architects and designers specify the Heritage Collection™ designer concrete masonry units as their preferred building material of choice. The Heritage Collection adds traditional brick aesthetics to a project while offering the ultimate in design versatility being available as a structural concrete masonry load-bearing unit.

** Stocking; Heritage Slate **
 ** Additional colors and lead times may vary. **

Note: Also available in a 2-hour fire rated unit. Ask a sales representative for more information.

- 8"x4"x16" thru-the-wall
- 8"x4"x16" bond beam
- 4"x4"x16" stretcher units

Shapes

We distribute multiple offerings of unique shapes to compliment and complete your project. This includes watertables, sills, coping and treads, corners, lip and radials and arches. Varying specs are available to accommodate any space in whatever application you may need. Ask a team member today for more information.
